March 9, 2017

Mayor Steve Pellegrini  
Township of King  
2075 King Road  
King City, ON L7B 1A1

Dear Mayor Pellegrini,

**Re: Public Information Centres York Region Transit 2018 Annual Service Plan**

This letter invites you to a York Region Transit (YRT/Viva) Public Information Centre (PIC) in the Township of King on Thursday, March 23, 2017, from 4 p.m. to 8 p.m. at the Township of King Offices, Council Chambers, located at 2075 King Road, King City. The PIC date, time and location was discussed and confirmed with the Township of King CAO's office.

YRT/Viva staff is preparing its 2018 Annual Service Plan and would like to consult with community representatives, members of Council and residents about transit routes and services throughout York Region. Local municipal planning staff has already been engaged and provided their feedback to proposed transit changes within your municipality. All comments and feedback will be incorporated into route revisions, where possible. In addition, for the 2018 Annual Service Plan process, we will be offering online feedback options on all proposed changes. More information will be available on this initiative in the near future.

Input from Council members and residents is very important. We hope that you and/or your staff will be able to attend and provide input into the service planning process. In addition, this outreach activity will allow interested residents to gain a better understanding of YRT/Viva's operations and the strategies to be implemented in the upcoming year.

Thank you for helping us to build an innovative, reliable and customer-based transit system. We look forward to seeing you at the Public Information Centre.

Sincerely,

Wayne Emmerson  
York Region Chairman and CEO
