Residential Accessory Structure

Application Guide

Description

A building permit for a residential accessory structure such as a shed, cabana, pool house or detached garage.

General Information

A building permit is required for;

- any detached accessory greater than 10m² (108 sq. ft.), with the exception is sheds which can be up to 15sm provided they are for equipment storage only.
- an accessory structure attached to another structure even if the new structure is less than 10m².
- any accessory structure that contains plumbing regardless of size.

Additional Requirements prior to building permit application

The Building Code Act prohibits the issuance of a Building permit if the proposed construction or demolition contravenes any Applicable Law as defined in the Ontario Building Code. Furthermore, **applications that do not have the required Applicable Law documentation with their building permit submission will not be processed.**

Please verify all approvals that may be necessary prior to submitting your application to construct. The following are examples:

- **Site Plan Development Approval/Agreement** (King Townships Planning Department)
- **Zoning Certificate** (King Townships Planning Department)
- **Oak Ridges Moraine Conformity** (King Townships Planning Department)
- **Lake Simcoe Region Conservation Authority or Toronto Region Conservation Authority**
- **Approved Grading Plan** (King Townships Development Engineering Department)

Required Drawings for building permit application

Survey or Site Plan

Survey or site plan, referenced to a current survey, showing the size and location of all existing structures, the new proposed structure(s) and distances to property lines as well as structures on adjacent properties. Location of septic tanks and leaching bed to be shown (*if applicable). The site plan must be approved by both the Zoning Division and the Development Engineering Division, Township of King prior to applying for your building permit. Separate fees apply for the Zoning Certificate and the Grading Approval process.

Floor Plans – Architectural & Structural

Floor plans fully dimensioned for each level showing architectural and structural details including foundation; slab, footings, exterior walls, joists, rafters, lintels and beams. Plans to show the use of all spaces including the location and type of all plumbing fixtures and floor drains.

Elevations

Elevations illustrating all window and door openings as well as denoting exterior cladding/siding type. Indicate roof pitch and dimension overall building height measured from established average grade.

Sections & Details

Cross section(s) to show building construction specifications of all floor, wall and roof assemblies. Show overall building height calculated to the midpoint of the roof or as per zoning by-law standards. Detail stairs, landings, headroom, guards, handrails heights and connection specifications if required.

Sewage System Evaluations or Upgrade

Where an accessory structure includes plumbing and is serviced by a private sewage system an evaluation of the system or a system upgrade may be required. System drawings & details to include Designer information on all documents (unless exempt). Statement of Design and site plan showing location of septic tank, leaching bed and well, in relation to property lines, other structures and bodies of water (creeks, streams, ponds, etc.)

Note: Drawings prepared by a qualified Designer as defined by the Ontario Building Code, must include designer’s name, Building Code Identification Number (BCIN), signature, and statement that the designer has reviewed and takes responsibility for the design and meets the qualifications set out in the Ontario Building Code as a Designer or other/independent Designer.
