

Petition for Traffic Calming Measures

What is traffic calming?

The purpose of traffic calming is to alter driver behaviour to encourage appropriate speeds on the Township’s neighbourhood collector and local streets and rural roads. Traffic calming is used where the majority of motorists are driving inappropriately. It is not intended for locations where there is ongoing construction or where only a few motorists are speeding. Police enforcement is the best solution in these cases.

We, the undersigned, as owners/tenants of the households in the defined area, request Council to consider traffic request a traffic calming assessment on our street as detailed below:

Street: Limits from/to: Description of concerns:
