

Notice of Road Construction

Bathurst Street

Green Lane to Holland Landing Road

Town of East Gwillimbury, Township of King

The Regional Municipality of York works to maintain the condition of our Regional roads for motorists, cyclists, pedestrians and transit users. York Region is making improvements to **Bathurst Street from Green Lane to Holland Landing Road in the Town of East Gwillimbury and the Township of King**. You are receiving this notice because this work will be taking place close to your residence or business.

A road preservation treatment, called microsurfacing, will be applied to Bathurst Street. Microsurfacing is a common and cost effective way to maintain and treat roads with minor defects. The road surface can feel rougher and sound noisier after the treatment. Over time, the stones will knead together and the surface will become quieter.

Work is scheduled to begin **late May and is anticipated to be completed by end of July 2021**. Crews will begin preparing the site for construction during the week of May 17. As with all projects, some work may be rescheduled due to weather or delays related to COVID-19 Public Health guidelines. York Region will provide advance notice whenever possible.

Bathurst Street will remain open to traffic and access to residences and businesses will be maintained. However, to accommodate construction, **lane reductions may be required on weekdays from 9:30 a.m. to 7 p.m. and Saturdays from 7 a.m. to 7 p.m. To minimize impact to those travelling in the area, night work will be completed Monday to Saturday, from 7 p.m. to 6 a.m.** York Region will make every effort to minimize disruptions and thank you for your patience and understanding.

Safety is a priority so please slow down through construction areas. If you have any questions regarding this project, contact information has been listed below. To better assist you, please quote **Bathurst Street Microsurfacing** in your inquiry.

To learn more about microsurfacing and its benefits, please visit york.ca/roadconstruction.
