# IS PERSONAL TRAINING FOR YOU?

Would you like to take your training to the next level?

New to working out and need some direction?

Not seeing results?

Bored with the same old workouts?

Do you need accountability and motivation?

Do you have a specific injury or medical condition?

Training for a special event or sport?

**If you answered "yes" to any of the above questions, book your complementary assessment today!**

- Dryland Training - is designed to promote optimal physical improvements through a hockey specific progression of strength, power and speed focused exercises. The primary goal is to improve your most basic physical asset, STRENGTH; your SPEED and POWER will also improve as a result of your strength gains. The program also is designed to decrease injury susceptibility.
